

Limited Warranty

Residential Packaged and Commercial HVAC Products

SCOPE of WARRANTY and EQUIPMENT COVERED: The products covered by this Limited Warranty are specified on pages 2 and 3 ("Covered Equipment"). RHEEM SALES COMPANY, INC. (Manufacturer of Rheem®, Friedrich®, Ruud®, Sure Comfort®, Russell™ by Rheem-, Mainline®, Fujitsu®, and Thermal Zone®-branded Covered air conditioning, heating and cooling products) warrants the Covered Equipment to be free from defects in materials and workmanship, and will repair or replace, at its option, ANY PART of Covered Equipment installed in residential (any single-family dwelling, which includes apartments, condominiums, duplexes and homes) or commercial applications which fails in normal use and service within the Applicable Warranty Periods specified in this document in accordance with the terms, including, but not limited to, the specific exclusions set forth below, of this Limited Warranty and subject to the Manufacturer's right to inspect and validate the warranty claim as set forth below. If an exact replacement is not available, an equivalent unit or credit will be provided. The replacement will be warranted for only the unexpired portion of the original Applicable Warranty Period. If government regulations, industry certification or similar standards require the replacement unit to have features not found in the defective unit, you will be charged for the difference for those required features. If you pay the difference, you will also receive a completely new Limited Warranty for the new replacement unit. The Manufacturer does not authorize or warrant any online/internet sale of equipment through auction websites or any other method of online sales direct to the consumer, nor the sale of equipment by liquidators.

THE EFFECTIVE DATE OF WARRANTY COVERAGE IS DETERMINED AS FOLLOWS:

The Applicable Warranty Periods specified in this Limited Warranty are measured from the Effective Date.

- a) If the original installation date can be verified by the installer's invoice, then the Effective Date of warranty coverage is the original installation date as shown on the installer's invoice. For residential or commercial new construction installations, the final occupancy permit, or proof of purchase from the builder can be substituted for the installer's invoice.
- b) If the original installation date cannot be verified by the installer's invoice, or proof of purchase in residential new construction applications, then the Effective Date of warranty coverage is the product's manufacture date (as verified by the product's serial number) plus ninety (90) days.

The Applicable Warranty Periods for the Manufacturer's various models and parts are specified in this document.

WARRANTY EXCLUSIONS – In addition to the specific exclusions set forth in the other sections of this Limited Warranty document, This Limited Warranty WILL NOT APPLY TO:

- a) Damages, malfunctions, or failures resulting from failure to properly install, operate or maintain Covered Equipment in accordance with the Manufacturer's instructions;
- b) Damages, malfunctions, or failures caused by misuse, accident, contaminated or corrosive atmosphere, vandalism, freight damage, fire, flood, freeze, lightning, acts of war, acts of God and the like;
- c) Damages, malfunctions, or failures caused by improper conversion from natural gas to LP (liquefied petroleum) gas or LP gas to natural gas fuel source;
- d) Parts installed with Covered Equipment or used in connection with normal maintenance, as cleaning or replacing air filters, refrigerant, thermostats, tubing, or concrete pads;
- e) Covered Equipment which is not installed in the United States or Canada;
- f) Covered Equipment which is not installed by a qualified, trained HVAC professional in accordance with applicable codes, ordinances and good trade practices;
- g) Damages, malfunctions, or failures caused by the use of any attachment, accessory or component not authorized by the Manufacturer;
- h) Covered Equipment moved from the original installation location;

- j) Covered Equipment manufactured by the Manufacturer that has been sold to the consumer via the internet or auction website, and has not been installed by a trained, qualified HVAC professional.
- k) Covered Equipment which is not installed pursuant to applicable regional efficiency standards issued by the Department of Energy (DOE);
- l) Covered Condensing Units and Heat Pumps that are not part of a properly matched system as specified by the Air Conditioning, Heating & Refrigeration Institute (AHRI).

You are responsible for the cost of shipping warranty replacement parts from the Manufacturer's factory to the Manufacturer's distributor and from the distributor to the location of your Covered Equipment. You also are responsible for the cost of shipping failed parts to the distributor and for incidental costs incurred locally, including handling charges. (If in Alaska, Hawaii or Canada, you also must pay the shipping costs of returning the failed part to the port of entry into the continental United States.)
